Amendment to the Claims

This amendment accompanies the filing of the first submission of items concerning a submission under 35 U.S.C. 371.

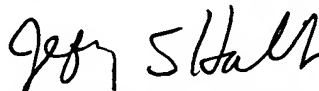

The amendment places the claims in better form for entry into the national phase, and is not done for purposes of patentability or in response to cited prior art.

The claims are in the originally-filed German pending receipt of the English translation of the application.

Applicant reserves the right to add claims in a subsequent amendment claiming subject matter identical to or patentably indistinct from the subject matter of the cancelled claims. Entry is solicited.

Respectfully submitted,

AXEL WISMÜLLER
